

## TAPE 2

Tape 2 is a flexible video tape unit based on a 14.5m rigid chassis vehicle featuring two separate operational areas, a slow motion replay area capable of supporting 11 operators and an edit area. It is equipped to support 6 x 6 channel EVS LSM machines and up to 16 digital Sony VTR's and 4 tape machines. Clean edit, IP director and X file are also available. Tape 2 is ideal for adding slow motion facilities or expanding the VT capabilities of the larger integrated production units.

## SPECIFICATIONS
