

## TAPE 4

Tape 4 is a 16.5m flexible video tape unit based featuring two separate operational areas, a slow motion replay area capable of supporting 7 operators and an edit area. It is equipped to support 6 x 6 channel EVS LSM machines and up to 6 DVW M2000 VTR's and 4 tape machines. Clean edit, IP director and X file are also available. Tape 4 is ideal for adding slow motion facilities or expanding the VT capabilities of the larger integrated production units.
